## Travel ESP Cards Black by Paul Carnazzo

Zener cards, also known as ESP Cards, are a great tool for Mentalists and Magicians. By using ESP Cards (shapes include wavy lines, a circle, a square, a triangle, and a star) instead of standard playing cards, spectators perceive that you're tapping into their mind even more!

**Travel ESP Cards** is the most portable deck of Zener cards ever made! The cards are 100% plastic, they are the same dimensions as a credit card, but are SUPER thin.

These cards appear to be from the same Institute of Parapsychology as some of the other Mental Voyage Testing Cards.

The set includes ten cards, the normal for the standard "Zener Test," and takes up less space than 3 credit cards. Since they are 100% plastic, they are EXTREMELY durable. The cards are also secretly marked.

You'll keep these cards in your wallet and be ready for a Zener test everywhere you go! Included with the cards are routines by Paul Carnazzo, Ran Pink and Pablo Amira. The **Travel ESP Cards** comes with two sets of five of the standard ESP symbols and a PDF instruction manual.
