## White Tally-Ho (Fan Back) - Pokerdeck

The **Tally-Ho** brand has been synonymous with quality and elegance for over 100 years. Penguin has given both the Fan Back and Circle Back designs a revamp with a classy Black and White inverted color scheme and a limited-edition premium tuck box.

We started with the faces... and didn't change a thing. The beloved **Tally-Ho** Ace of Spades and Identical Jokers are classics for a reason. We kept the rest of the faces traditional for maximum compatibility with your existing **Tally-Ho Playing Cards**.

The stock and finish are a worker's dream. The cards feel perfect straight out of the box, but also put up with wear and tear incredibly well thanks to the high-grade Bicycle stock and top-of-the-line Magic Finish.

Finally, the tuck box. We used a premium-grade tuck stock and applied the design in black foil. Every element on the box is crafted from black foil. This gives the box just a hint of texture as well as a subtle, elegant shine when it catches the light. This foiled tuck box will only be available on the limited-edition first printing of the White **Tally-Ho**.

But we didn't stop there - we also made sure to include a double-back card and a blank-face card in each deck that will allow you to perform impossible miracles without the need to buy anything extra!

If this deck had been available when they filmed *The Sting*, this is what they would have used!
