
Phantom Burn by Alan Rorrison - DVD

Fire has been used in rituals and performances for centuries. It is associated with having mystical properties, and with this new trick in your arsenal, you will be able to harness these magical properties to reveal secret messages!

Imagine a spectator selecting a card, losing it in the deck, and the magician doesn't even need to look through the deck to find it. Instead, the performer produces a receipt, eerily places a lighter underneath (far enough away so that the receipt does not catch fire), and the card's image mysteriously appears on the receipt. WOW!

From the mind that brought you Sharpie Through Bill and Praemovo, this is Star Artist Alan Rorrison's latest addition. Introducing **Phantom Burn**. A customizable illusion that allows you to reveal a message on a receipt using any lighter! This one is sure to impress your audience, and can be incorporated to fit into many routines for a more exciting reveal!

(Please exercise caution when performing this illusion.)
