## Dystopia - Pokerdeck

**Dystopia Playing Cards** are a disturbed tribute to Australian filmmaking legend George Miller and his apocalyptic masterpiece *Mad Max: Fury Road*.

The Joker and the Thief have taken a deadly descent into the apocalypse. We welcome you to a world of fire and rage. Will you survive the wasteland?

Featuring insane artwork by artist Pedro Oyarbide, each court card has its own distinct, unhinged persona. Our Ace of Spades is bold and brash, much like the v8 engines it represents. The back design issues a harrowing message: "Good Luck. Good Bye."

**Dystopia Playing Cards** has distinct attitude that is only ever truly achieved by the Joker and the Thief Playing Card Company. Rocking a specialty letter-pressed tuck case complete with bitchin' red, white, and gold foils, **Dystopia Playing Cards** is bound to find a place in your collection!

Win your poker games in style. Practice cardistry with attitude. Perform magic with presence. Made in the USA.
