## **PaC Stack: Fully Constructed by Paul Carnazzo**

Imagine having a spectator write a word, or draw an image, on a blank business card. THEY can place it into a stack of cards. STILL, you can divine what they wrote! With **PaC Stack**, you can do this!

**PaC Stack** is an innocent-looking gimmicked stack of blank business cards.

**PaC Stack** can be used to peek at words or images in a very deceptive fashion. It can also be used as an Out To Lunch pack and for secret writing.

Until now, **PaC Stack** has only been available as a do-it-yourself arts and crafts project.

Now you can get the **PaC Stack** device fully constructed and ready to go!

What you get:

- A fully constructed **PaC Stack** device
- 15 blank cards
- Approx. 25 minutes of video instruction detailing the construction and use of **PaC Stack** (delivered as an instant download after purchase)
- Instructions on how to make your own customized device
- Handling tips
- Details on how to use the **PaC Stack** for peeking, Out to Lunch and secret writing

**PaC Stack: Fully Constructed** measures approx. 3 1/2 inches long x 2 1/4 inches wide.
