## **Mind Invasion by Morgan Strebler - DVD**

From the mind of Mentalist Morgan Strebler, this is a creation he has developed for himself and, after over a decade, is now ready to share with the world! This is **Mind Invasion!**

Have someone write or draw anything they want on a piece of paper, whether a symbol or a word. With **Mind Invasion**, you apparently read their minds by revealing what was written down! A peeking technique like no other! Learn all the techniques necessary and freak out even the toughest, most skeptical audiences!

No restrictions to Lighting, Positioning, or Tearing!

Some say peeking is the mother of Mentalism. While many peeking techniques have restrictions tied to them, this one has been refined to allow for the most versatile performances possible!
