## **Jack Yates' Card Caprice by Ken de Courcy - Buch**

**Card Caprice** contains two of Jack Yates' most coveted effects. Jack's Wallet is a combination Mental effect/Card to Wallet, where a selected card later appears inside an un-gimmicked wallet.

You may never want to purchase another gimmicked wallet after reading this method. Jack's Line Up is the second effect taught. This is one of the best impromptu mental effects that can play to a huge room.
