
Miracle Linking Ropes by Amazo Magic

A great rope routine having many magical phases!

The magician ties a rope into a ring. He does this with two other ropes, forming three separate rings. Magically, the rope rings link together, producing three linking ropes. The magician then turns the three rings into a single big ring of rope having three knots.

There's still more! A blow on the first knot and it falls to the ground, a blow on the second and it falls. The third knot is opened, revealing that the rope is now one long piece.

- Stage or parlor magic.
- High quality 100% cotton red rope.
- Written instructions included
