
Memento Mori Blue - Pokerdeck

Time is the most precious gift. It lets us imagine, and drives us to create.

The **Memento Mori Blue** is a celebration of life, a sign of what inspires us, and a constant reminder that our time here is fleeting. It is a symbol of our eternal defiance against our own impermanence. It is a design reminding us to create, to imagine, and to live.

The low-poly design is simple and post-modern. Yet, beneath the clean veneer of elementary shapes, lies a complex shading arrangement meant to breathe life and dimensionality into an otherwise flat image. The prevailing blue hue throughout each custom card embodies man's ubiquitous reflection on mortality. This marvelous deck allows you to make a statement.

Many historians believe that playing cards represented a deeper, esoteric meaning, that each suit was one of the four seasons. Each card within a suit was one of the thirteen phases of the moon. The Fifty-two cards in a deck would represent fifty-two weeks of the year and together, this would represent just one year of your life.

Create, imagine, inspire... Memento Mori
