## **MOVE by Danny Weiser and Taiwan Ben**

From the mind of Danny Weiser comes a new twist on the Kineti-key effect!

### **MOVE**

Imagine using a pen throughout your performance, allowing the spectator to use AND inspect it as well.

Then, under your complete control, you cause the clip to detach from the cap and move along the body of the pen. You then magically restore the clip back onto the cap and hand the pen back out to be examined!! A Perfect "Anytime" effect!!

A stunning and fooling effect!
