
BIGBLINDMEDIA Presents Gaff-Tacular (DVD and Gimmicks) by Liam Montier - DVD

Stephen Tucker invented some AMAZING magic, and here, Liam Montier collects 6 of the very best tricks using GAFFED cards!

First up, all of these tricks are EASY - well in the reach of anyone who has done a few cards tricks before! (No Elmsley Counts or Half Passes here!)

All the tricks are fun, social and FOOLING! Blank cards become printed, and then blank again in a heartbeat. Cards change into selections, and then into a bizarre mish-mash! Signed cards vanish and appear in different pockets, then jump BACK even more impossibly, and take on a life of their own in a staggering cards across routine! And 'Absinthe Makes the Heart Grow Fonder' is the PERFECT multi-phase trick for your wallet!

Together with these incredible routines, you get all of the gaff cards you need, and Liam Montier's acclaimed teaching, together with professional hints and tips on how to perform them, make them commercial and practical for professional use, and much, much more! Get ready for **GAFF-TACULAR!**

All the necessary gaffs are provided.
