
Xchange (Online Instructions and Gimmicks) V0020 by Eric Jones and Tango Magic

From the creative mind of Eric Jones and from Tango Magic, we introduce **Xchange**. With this semi-automatic coin trick, a copper and silver coin exchange places in the most magical ways. The final sequence even involves a coin changing in the spectator's hand! The magic is disarming, yet simple to do. The ease of handling allows you to concentrate on presenting to your audience rather than having to remember difficult sequences. The set includes 4 coins of Tango Magic quality and a link to video instructions. You'll love this!
