
SKETCH by João Miranda and Julio Montoro

From the creative minds of João Miranda and Julio Montoro -- an extremely visual and surprising card revelation like no other.

In this illusion, the magician shows a pad, and sketches a card - his prediction of the one the spectator will choose. The spectator then selects a card, and the magician shows what he has drawn -- the audience laughs because the magician only drew the **BACK** of a card!

Suddenly the drawing **VISIBLY** jumps out of the pad, transforming into a real card, exactly matching the spectator's selection!

SKETCH is extremely easy to perform, and is always guaranteed to get an amazing reaction from the audience.
