- Totally self-contained (nothing added to the envelope)
- Instant reset
- Multiple routine ideas
- Can be performed totally hands off!

Volition is the Bank Night effect you have been dreaming of!

### **Routine idea:**

Imagine showing four cards. Your spectator is asked to mix them facedown (so nobody knows the order) they place any one of the cards into any of the colored envelopes and then mix the envelopes and deal them out.

Now you state that each card has a prize and whatever prize they have received

---

they can genuinely take home.

Spectator number one opens their envelope and reveals they have won a lollipop. You reach in to your pocket and hand them a lollipop.

Spectator number two opens their envelope to reveal they have won your business card. You take a business card out of your wallet and hand it to them.

Spectator number three opens their envelope to reveal they have a chance of winning £250,000 you now reach in to your wallet and remove a scratch card.

Now there is just one envelope left, the one they dealt to you. You open it (or your spectator can if you wish) to reveal you have won your wallet including all the contents!!!

There are so many routine ideas for Volition, you will love the concept!!!
