## Mullica Wallet Hacked! with Books, and Props (Package)

### Why the Mullica?

The Mullica Wallet is one of the best-selling wallets of all time and used by more professional performers than any other wallet on the market. The reason for this is that the Mullica Wallet is dependable, requires no get ready or preparation, resets immediately in front of the spectators and features a no palming "card-to-wallet" method.

### Simple Plot

The basic plot is simple. A spectator's signed card appears inside a small wallet nesting inside a larger one that's been in your pocket, lying on the table in plain view or being held by a spectator. The method is easy, practical and within the reach of any performer.

### HACKED!

Bill Abbott's vault of knowledge on the *Mullica Wallet* is blown wide open in *Mullica Wallet HACKED!* Four commercial killers ripped straight from Bill's working repertoire! Close-up pieces and a stage worthy routine with every detail and secret revealed for the very first time. In addition to the four routines, Bill will teach you techniques, handlings and secrets that can be applied to any Mullica style wallet.

### Routines Performed and Explained:
