## **Precision Aces**

Four aces and three selections are lost in different places in the deck. After a few shuffles, the aces trap all the selections.

## **The Big Blind**

Here's an amazing Texas Hold 'Em demonstration. The performer divines the flop, turn, and river cards from a shuffled deck-and wins the hand with a powerful hand.

## **Bringing Down the House**

It's the strongest blackjack demonstration you'll ever see. The performer deals four suited naturals from a deck shuffled by the audience.

### **Ladanye's Ambitious Card**

Every performer seems to have their own version of this effect. Ladanye's version has a closer that brings the house down. One of the cleanest and strongest versions you'll ever perform.

### **Arcane Control**

The performer gives a stunning demonstration of how he can control cards during a shuffle.

### **The Player**

This is a version of the torn and restored transposition made famous by David Williamson and David Blaine. Jason reworked the effect and gave it a killer presentation. This one is a real crowd pleaser.

### **Forging Ahead**

Here's one of the strongest signature transfers you'll ever do. In Jason's version of this classic plot, you transfer the initials from the face of one card to the face of another card. This effect will eviscerate your audience.

mixed by a spectator. The performer wins the bet and finds the card where no one suspects.

### **The Set-Up**

The performer offers to teach a card trick to the audience. After the explanation they are left with an even greater mystery.

### **The Ultimate Exchange**

The magician makes a card change places with another card that's face up in the spectator's hand!

### **Through and Through**

The performer pushes a single playing card through the table. The effect is repeated. On his second attempt, the entire deck travels through the table - except for one card - the signed selection.

### **\*\*Volume 4\*\***

### **The Gathering**

The performer finds three selections using four aces in just one shuffle.

### **Thought Transference**

The performer causes a card the spectator is thinking of to disappear from a packet of cards. The thought-of card reappears under the spectator's hand.

### **The Big Stack**

This is a gambling demo that will bring the house down. The performer shuffles the deck twice and deals himself the four queens. His opponent has the four kings. When the performer shows his hand again it's turned into the four aces.

### **Best for Last**

The performer deals himself every poker hand from lowest to highest. This is a closer that you'll add to your repertoire right away!
