
Multiplying Bottles (Color Changing/8 Bottles) by Premium Magic

Do you enjoy astounding your audience and making them laugh? This effect does both!

Two cylinders are on a table. The magician lifts up the first one and shows a bottle underneath. The magician proceeds to lift the second cylinder revealing an empty wine glass. After covering both with their respective cylinders, they incredibly switch places.

After repeating this action a few more times, the bottle vanishes completely and a DIFFERENT bottle appears!!! Ultimately 8 bottles appear.

Unlike many other Multiplying Bottles on the market -- the magician is able to pick up the final bottle and pour liquid from it!

- Comes complete with 8 nested bottles.
- Each bottle is a different color.
- Inner bottles have false bottoms to load liquid.

Note: Wine glasses NOT included.
