## Pencil to Flower by Mr. Magic

Mr. Magic **Pencil to Flower** is a great effect that is easy to do AND the magic happens in the spectator's hands.

The magician shows a wooden pencil. He places the pencil inside a metal tube, puts the cap on it and gives it to a spectator to hold. After a few moments, the spectator is asked to take the pencil out.

Upon opening the cap, the spectator finds the pencil is inexplicitly gone and, in its place, is a small feather flower! Perfect for intimate magic and completely self-working.
