
Insta-Change (U.S. 10) by Nicholas Einhorn

Insta-Change is a single bill/banknote transposition, and has been a sellout at the Blackpool Convention for the last two years.

1. From your wallet or pocket, you show a receipt from a well-known, high-end store.
2. You show it and fold it into eighths.
3. You immediately open it and show it to be a real bill/banknote.
4. The bill/banknote can be handed out for examination or even given away!

A perfect gimmick to carry in your wallet for an any-time miracle.

The gimmick provided is hand-made from non-tear paper and is pre-folded. Thanks to a clever printing process, you are able to simply snap this gimmick onto a real bill/banknote and perform it immediately.

This is not an art project that needs to be assembled -- it comes ready to work straight out of the box!

Simple online video instructions show you how to perform this within minutes. You'll love the impact that **Insta-Change** has on your audience. Anything involving money transpositions catches their attention immediately.

Available in UK Pounds (£10), US Dollars (\$10) Japanese Yen (¥;5000) and Euros (€50)
