
Token (DVD and Gimmick) by SansMinds Creative Lab - DVD

Magic is not just about what your spectators can see, it is also about what they can feel.

Imagine having a straw magically fold itself bit by bit into a origami heart. Your spectator can see it up close and they get to keep it in the end.

The SansMinds Creative Lab team brings you "Token." The routine has been tested on the streets of Vancouver, Canada (arguably the most diverse crowd in the world). It has been proven to be the perfect routine to touch anyone's heart.

*Gimmick Included

*Two handling: Borrowed Straw & Prepared Straw

*TV rights not included with purchase. Please contact SansMinds for TV rights.
