
Short Bicycle Mandolin Deck 809 (Red)

This deck is a regular Mandolin 809 Bicycle back deck. All the cards in this deck have been shortened a fraction of an inch, similar to a Svengali deck.

About the Mandolin 809 Bicycle Deck

Design: Paul Harris directed the development of the new 809 Bicycle back with USPCC. Paul worked with three world class artists (including Garrett Thomas) to create a soothing traditional looking back that's instantly trusted as part of the Bicycle family. And yes, this classic looking deck even features the trademarked Bicycle Ace of Spades, Joker and the traditional box.

Quality: Richard Turner worked directly with USPCC manufacturing to ensure the new Bicycle 809 Mandolin has a superior cut and quality. These are exquisitely crafted decks! Once you feel these cards you will never want to put them down. Jon Racherbaumer, Bill Kalush, Alan Ackerman, Johnny Thompson, Richard Kaufman, Jason England, Justin Miller, Steve Haynes, David Ben, and other pros have tested and enthusiastically approved of the Mandolins.

Mandolins also are the only deck on the market featuring the classic "full-back" Bicycle card case that so many performers prefer.
