
Magical Streetlight (Jumbo) by Astor

A wonderful trick with fantastic effects. The trick includes a little black paddle covers. The little colored dots on the covers jump inexplicably from the covers to back, then comes the highlight of the trick: all three dots finally jump to the covers. To be learned in a short time and due to its small size you can have it all the time with your pockets and show a wonderful trick at any time.

Dimensions Approximately 6.25" x 1.25"
