
Calendar Presage by Paul Romhany

IMAGINE being able to perform at least **SIX DIFFERENT** routines from one pocket calendar.

A years worth of miracles in your pocket.

LOTTERY PREDICTION

PREDICT PLAYING CARD FOR ANY GIVEN DATE

PROVERB PREDICTION

FORTUNE COOKIE ROUTINE

SCRATCH & WIN PREDICTION

NAME ANY WORD AND MORE...

EFFECT:

You give the spectator an envelope, or show them a piece of paper or card inside your wallet. They **HOLD** this the entire time. Bring out your pocket calendar and have them flick through it looking at the dates and different items written in it.

One example might be a playing card at the top of every week of the diary. They give you **ANY** date and you look at the card on that date. They take out the contents of the envelope and it matches the playing card, or the proverb, color or lottery numbers on the prediction.

REMEMBER - You give them the prediction **BEFORE** you bring out the pocket calendar and they get to flip through the calendar.

The pocket calendar looks just like any date book you might purchase in a book store to keep important appointments and information. For each week there is a proverb, lucky numbers, a special color and room for you to personalize it and make plenty of notes, appointments and comments to make this your own.

The book comes ready for you to force two proverbs, two colors, two lucky lottery numbers or scratch and win numbers, and two weeks of entries that you can divine. You can add a playing card to each week so you can also do date and playing card type routines.

IMPORTANT POINTS:

1. Custom made calendar books
2. Prediction is given to spectator **BEFORE** the trick

-
3. Spectator can handle the pocket calendar
 4. Fits inside your pocket perfect for walk-about
 5. At least SIX different routines and predictions
