Tango Brass Nest of Boxes (B0001)

Tango nest of boxes, is another jewel introduced by Marcelo Insua and Tango Magic.

They are two small brass boxes, perfectly built, one fits inside the other. You can make a borrowed ring, a signed coin or one small paper with a prediction appear inside the boxes. They work like a bill tube system and look incredible. Besides, the set includes a hankerchief to vanish a borrowed ring and you get a link where everything is explained. In this link you have a great routine using this nest of boxes, plus another 60 different routines with Tango products.
