
Triage (with constructed gimmick) by Danny Weiser & Shin Lim Presents

In today's society, everything is fast paced. We must not waste time going from one place to another, and even certain social media outlets have time constraining video lengths. With less than a quarter of a minute for media such as Instagram, how are we supposed to demonstrate the full potential of a long winded, old fashioned, piece by piece TNR restoration?

Danny Weiser, a creative thinker for the modern magician, introduces his take on the TNR. It's swift, magical, and direct. Welcome to Triage.

* For your convenience, this package includes a completed gimmick so you can start enjoying your Triage right out of the box. No arts and crafts needed.
