
The Mindpod (DVD and Gimmick) by Joaquin Kotkin and Luis de Matos - DVD

DIVINATION OF A THOUGHT-OF TUNE

Two sets of cards are shown. They resemble mini iPods and contain the titles of 100 popular songs. The spectator mentally chooses one of the songs. Then removes two cards that bear the title of the selected song. The performer can instantly name the thought-of song. A totally self-working mystery. Includes special cards and further presentational ideas for close-up, parlour and stage. We have even compiled a Spotify playlist so that you can play the mentally chosen song from your smart phone.
