
Fully Automatic Card Trick by Caleb Wiles

It's rare to come upon a trick that is COMPLETE. With "FACT" you receive a completely worked-through routine: a compelling presentation, a diabolical magic trick, and a deck of cards that does ALL the work for you. What's not to love?

The idea is that a deck of cards is cut and shuffled, and the spectator follows a series of instruction cards that are increasingly fair and impossible. And despite the mixing and the COMPLETE fairness of the procedure, the spectator finds her OWN selection... and then she finds all three mates to the selected card.

- Really easy to do
- The special deck does everything for you
- Fully customizable

What you're investing in with "FACT" is a full routine, ready to be inserted into your show. It has a compelling script, a fun, interactive premise, and a HIGHLY deceptive method. This trick requires no advanced skill, and the special deck of cards contains everything you need to perform, right out of the box. We love Caleb Wiles's magic, and he teaches this clever performance piece in great detail on downloadable video instructions.

*"When I first saw Caleb perform the **Fully Automatic Card Trick** on Fool Us I was smiling, ear to ear, because it had all the hallmarks of a great piece of magic: engaging presentation, completely deceptive, and unlike anything I've seen before. I'm a big fan of Caleb, and this trick!"*

- Joshua Jay

Note: Can only be performed in English.
