## **Outbreak by Ladislav Toubart - DVD**

Ladislav Toubart is a master of cardistry and is regarded as one of the top card flourishers in the world. Outbreak is his debut project, featuring 17 original card flourishes.

Learn Ladislav's signature moves, all explained from multiple angles and in slow-motion, including an easy to follow point-of-view shot.

Plus never before seen moves and concepts by Dimitri, Ryuji, Anthony, and Ryoma.

Outbreak is not only an instructional video teaching original card flourishes, but a tribute to cardistry, and a visual expression of our passion for the art.

Filmed on location by François Dubois in an abandoned warehouse in downtown Los Angeles' factory district.
