
Aesthetic by James Miller - DVD

There has been really few people able to do both magic and flourishing, we want to add one more to the list.

"...I've met James for the first time at "The Session" in England 3 years ago, that's where we had our first lengthy exchange. What I liked about him (in addition to the fact that he is a really nice person) is that he was really good in both magic and flourish. I naturally told him that if he wanted to release something to the magic community I'd be there to help. Fast forward : 2 years later we are releasing his debut DVD! It's for me a huge honor to produce James' material and to see how Magicalsleight influenced him (his words, not mine). His magic is as visual as mine and I immediately added some of his creations to my repertoire (those who know me well know that it doesn't happen often). I hope that you'll have as much pleasure watching this DVD as we've had working on it..."
