## **SCAR (DVD & Gimmicks) by Spidey**

SCAR is a custom made gimmick which allows you to literally turn an endless number of everyday objects into killer revelations.

The Scar DVD is full of presentational ideas and applications created by international mentalist; Spidey (Psycho, Phantom, Ultra gum) and additional thoughts and handlings by sleight of hand expert and close up magic champion; Shin Lim (52 shades of red, Iconic, S.S.S.) There is something in here for all types of performers regardless of skill level.

Here are just a few possible effects that can be performed with Scar.

**Psychic sketch artist:** The performer runs a borrowed pencil over a borrowed piece of paper and an eerie impression appears revealing a randomly cut to card.

**Foiled 2.0:** A spectator uses a piece of borrowed tinfoil to read the minds of other spectators (no stooges whatsoever.)

**SCAR:** The performer steals the thoughts of the spectator who is amazed to see the lines on the performer's hand morph and shift to reveal a selected card.

And many more...
