
Influx (DVD and Gimmicks) by Tom Elderfield - DVD

While card tricks are a staple with many magicians out there, spectators want more than card tricks. However, when you need more than a stereotypical card trick, try picking up an everyday object like a gum pack and let Tom Elderfield show you how you can turn that ordinary pack of gum into a carnival of gum magic.

On this DVD you're going to learn a bounty of original gum tricks that Tom uses every day to astound and inspire. He'll teach you how to shift the flavor of your gum from watermelon, to blueberry, then to strawberry. Out of gum? Easy, just make them appear, SEALED in the blister back. Or just slam the foil pack of gum into the box to find that the pack of gum passed through the box and is now secured inside. Pop pieces of gum out of the pack without breaking the foil. The tricks are many and the visuals make you want to see it again and again.

Nine delicious effects rolled into one package. Jump into the sweetest gum tricks you'll ever see, or... taste.

- Gimmicks included
- Easy construction
- Hand out gum for inspection
- Hyper visual
