## Octopalm: Anti Gravity Gel

You can now accomplish in your two hands, what would normally take eight.

Octopalm: Anti-Gravity Gel is a new way to stick just about any lightweight object to your skin, without the sticky residue. No more double stick tape. No more glue dots. No more sticky adhesives. No more tacky wax.

Octopalm is the most revolutionary adhesive since magician's wax. This is a completely new chemical design that, when applied in small doses to the skin, can give you the abilities of a gecko's touch by adhering small objects to your hand, arm, fingers, even your forehead. Objects want to stick to YOU. No sticky residue means you have the freedom to produce, vanish and change small objects at will, like never before.

Ever wanted your skin to be magnetic to just about anything? Solved. Ever wanted to quickly hide a coin on the back of your hand? Easy.

Touch your skin and it feels smooth. Press a coin to it and it fuses to your hand like superglue. Take the coin off to find no sticky leftovers. The uses are endless.

- New, never before seen utility item
- When applied to the skin, it adheres almost any small object
- Provides gecko-like ability to do impossible tricks
- Leaves skin smooth
- Thousands of uses - possibilities are tremendous
- Packs small
- Far superior to skin adhesives like wax, glue dots, double stick tape
- Easy to apply on the fly
- Long lasting - A little goes a long way
- Includes a 90 minute instructional video with multiple tricks, routines, tips, & performance ideas

"Pick some of this up and you won't be able to put it down... That's how you know it's working."

- **Zach Heath**

"This stuff is phenomenal! Octopalm can help in so many ways! What you can do with Octopalm is up to your imagination. I'm all for this, two thumbs up!"
