Magnetic Cane Holder by Alan Wong

The magnetic cane holder is a secret utility item worn as a belt clip and designed mainly for cane workers with the following features:

- Steel spring clip securely worn on your belt under your jacket, or attach to any thin table edge or case
- Super strong nickel cadmium magnet 30 x 40 x 4 mm
- Fine leather protective guard and damping surface
- Can easily hold up to four steel metal appearing canes with one clip, (commonly eight canes with two clips, one on each side)
- And anything attracted to a magnet such as coins, bent spoons or metallic gimmicks
- Utility magnetic holder only with no instructions

Warning: Don't place it near any magnetic coded credit cards or smart cards with chips because they will be damaged.
