## Twister Thread by Twister Magic

After the great success of Cup Zero in the market last year, George finally decided to release Twister Thread to the magic world.

This is the same special thread George uses to perform all the effects in Cup Zero and that have been specially and exclusively manufactured by a thread company for Twister Magic Co.

This thread is perfect to achieve great and visual stage levitations, now you can levitate some objects that were impossible to float before!

Lift from 200 grams up to 2000 grams on stage (Depending on the number of connecting points) with a great level of invisibility.

Perform amazing feats such as:

- Floating objects from the ground all over the stage: Dancing Canes, Okito balls, Cell phones, Soda cans, Wine bottles, Soda bottles, a Losander Floating Table, without using a cloth or a gimmick and many more!
- Teleport objects from one side to another without touching them.
- Perform amazing Psychokinesis (PK) making objects fall to the ground at your command and anything your imagination can lead you to think of!

Finally a thread that will enhance your levitations on stage!

Inside of your package you will receive 50 meters (165 feet) of Twister Thread.
