## **Seven Killer Effects**

### **1. Be-Tween Production**

Rub two jokers at your finger tips and a card visually appears in between the jokers. PK style!

### **2. PK Double**

A single handed double lift with just the right balance of flourish and practicality to perform for live audience.

### **3. Inflict Evolved**

The first visual sandwich effect that allows your spectator to do the magic. The moment they touch a card, it visually changes to another. The evolved Inflict.

### **4. Centerpoint Retouch**

The updated display version of Patrick's signature Centerpoint effect. Slick and sweet!

### **5. Morf**

This is the effect everyone is talking about. Four random visually transform into any four of a kind of your choice.

### **6. DIY Aces**

Patrick's take on spectator cuts to the aces. It has never been easier!

### **7. Snowblind**

Patrick's ultimate finale for his everyday professional card routine. What's your excuse not to learn it?
