
Houdini Palming Coins (12 pieces) by Mr. Magic

The perfect set of coins for your coin routines!

They are slightly larger in size, making them easier to palm in your hand. They sound like real coins (great for being tossed into a pail). They are also quite light in weight and have sharper edges, making them easy to use and grip.

Everyone knows Houdini, so your audiences will enjoy seeing Houdini's likeness on the coins if they take a close look!
