
iClear (DVD and Gimmicks) by Shin Lim

Clear - "A modern take on a classic effect."

Imagine. Borrowing a cell phone, then placing it in your spectator's hands. With a simple magical gesture, you cause their iPhone to become COMPLETELY TRANSPARENT!

Use as a stand-alone effect or as an unbelievable ending to any iPhone trick or routine.

As well, Shin teaches multiple methods on vanishing & reappearing the spectator's actual iPhone.

This iPhone Gimmick is the same weight, size, and feel of a typical iPhone. You're spectators won't suspect a thing.
