
Stretcher (DVD & Gimmicks) by Jay Sankey

Shocking magic with a BORROWED item!

Easy to do + extremely visual!

Works with any tab from a can of soda or beer!

Effect:

The magician asks someone to snap off the tab from a can of soda or beer. The performer then holds the borrowed tab at the tips of his fingers and slowly, impossibly, **STRETCHES** the tab to an insane length!

The impossibly stretched tab can even be closely examined!

To finish, the stretched tab is visually shrunk back down to its regular size and the magician shows his hands completely empty!

Comes complete with 127-minute DVD + specially-machined gimmicks
