
Bag to Blendo (Large / stage) - by Mr. Magic

This is an excellent visual effect. The performer presents a solid colored bag from all sides. The bag is about 11" square. Now 4 different colored hankies are dropped into the bag. The bag is given a shake and in an instant it visibly transforms into a large silk foulard of the same four colors! As if somehow the silks blended together into a multicolored silk foulard.

Note: The exact colors for the supplied silks may vary from one set to another.
