
Parlour by Craig Petty and World Magic Shop - DVD

If you have ever wanted to earn more money from close-up magic, creating a Parlour Show is a VIP experience for your customers, that they will happily pay a premium for.

The concept of a Parlour Show dates back to when the leading entertainers of the day performed for wealthy clients in their own home. These days it is an opportunity for you to create a unique and intimate style of show for your own audiences.

On this 2 DVD Set, Craig Petty invites you to take a seat and witness his full live show, filmed in front of an audience, followed by studio explanations.

This is working material from one of the busiest performers in the business. The show features everything from cards, coins and even stick men.

Highlights include: Stick-Pack, Silk To Egg, Reversie, Copper Silver Extreme, Card Under Box and much more...
