## **KuKarate Coin (Half Dollar) by Roy Kueppers**

PLEASE NOTE: Contains Kennedy Half Dollar.

Imagine this, you take a coin and flip it into the air a few times. Catching it and showing heads, then tails, the next time you flip it in the air "WHAM"

You literally dart your pointing finger through the air and IMPALE the coin. That's right, your finger has busted all the way through the coin.

With this precision made gimmick, hand made in Canada, that is exactly what you will be able to do -- and your friends can examine the coin right afterwards.

Keep this in your pocket for an anywhere, anytime miracle.
