
N3 Coin Set (Half Dollar) by N2G

Imagine a silver Half Dollar in your hand when, without any cover or movement, it suddenly changes into a Penny!

Yes, you read it correctly! From a spectator's view there is absolutely **NO MOVEMENT** when the change happens. Both sides of the coin can be immediately displayed after the change happens.

You can use N3 in many other coin exchange routines as well.

"N3 is a much easier way to perform my Hellbound Remix. Great job by N2G!" - **Eric Jones**

"Excellent precision and craftsmanship, it is a pro's dream!" - **Gao Zhao**

"The change is so natural. It's the cleanest color change of a coin effect in the world." - **Tom Yu**

In the video trailer when the coin changes from a Half Dollar to Penny while being held in the fingers of one hand, there is no video edit. What you see is exactly what you can do.

N2G MAGIC uses the highest quality materials to produce the N3. It is expertly machined and is an exquisitely handmade gimmick. When combined with a unique handling technique, N3 can be used to amaze your audience by its beauty.

N3 allows you to perform one of the **CLEANEST, INSTANT, and most VISUAL** color coin changes in the world.

There is nothing more to be said about how good N3 is. The trial video you can watch speaks for itself.
