
Maestro by David Roth & The Blue Crown - DVD

First there was Bobo. Then there was **David Roth**. Considered to be the finest coin magician in the world by none other than Dai Vernon, David Roth's skill and creativity with coins is unparalleled. In Europe, he's known simply as "Maestro". On this DVD, you'll learn 4 of David's classic effects - routines that have been honed in front of live audiences, time-tested, and even performed on national television.

-Winged Silver + Chink-a-Chink

A perfect blend of 2 routines where you cause 4 coins to travel invisibly from one hand to the other, then make them travel to various points on a table without ever picking them up.

-Hanging Coins

Bring the coins off of the flat plane of the table and bring them up into the air, causing them to vanish one-by-one and then mysteriously reappear.

-Copper Silver Transpo

A copper coin and a silver coin switch places in your hands in the blink of an eye! Even when repeated, the switch happens at lightning speeds. (Requires gimmicked coin, sold separately.)
