
No Diary Diary by Chris Congreave and Titanas Magic Productions

Chris Congreave has come up with a version of the diary trick that fits in your wallet! No pack, no diary, NO KIDDING!

This takes up NO space and can be used in ANY wallet.

Imagine showing spectator a playing card in your wallet, then give them a small card that has every date printed on it, next to each date is playing card, they look up the card next to their own Birthday.

You then show the card that's in your wallet, it matches exactly!

- Completely self working!

- Instant reset!
- Uses any date!
- Works every single time!
