ROCK THE PLACE? When I say "ROCK THE PLACE", I am talking about a performance that the audience will be talking about for years to come. Amazing magic, hysterical comedy, improvisation, charm, wit, style... these are all elements used in such a performance. How many Magicians can you name? I can think of very, very few names. I can count them on my fingers. It is a short list, and PAUL DANIELS is the first name on the list!

PAUL DANIELS is a rock star of magic! He has spent his life perfecting his craft. He has entertained millions of people around the world, both on TV and in person. And now he is sharing his knowledge with the magic fraternity. He is teaching his "A" materiel and more importantly, teaching the thinking behind this materiel. Every magician who wants to be successful should listen carefully to what he has to say."

**- LANCE BURTON**

"Paul Daniels is a living legend of magic. He has a vast amount of knowledge and experience that can now be yours. Paul personally helped me learn the skills I needed to be a better performer. Listen, watch and learn from this master of our art.

**- JEFF MCBRIDE**

"The Paul Daniels one cup/ball routine is a my ideal of the perfect piece of magic. I worship at the altar of Paul Daniels."
