## The Mini Duvivier Wallet by Mayette Magie Moderne -Trick

You have seen it during the Dominique Duvivier's shows in Double Fond, either "live" or in one of his video programs...

You have wanted it to use in your own performances...

You have requested it from the shop..

The Mini Duvivier Wallet is now available again ... this time in a leather version!

In a cardholder format it looks completely harmless. It is in fact a "replacement wallet", or "Himber Wallet" in the purest tradition, but with that revolutionary "Duvivier plus", which changes everything ... and which will enable your accessory to be examined.

Nine routines (yes, you have read it correctly, 9 routines!) are explained to you in detail on the DVD accompanying the equipment: original routines signed by Dominique Duvivier, Alexandra Duvivier (See "Savings Plan" by clicking on the Associated Product below) and Quoc Tien Tran; big classics revisited and brought up to date, as well as the use of this marvelous wallet; full of useful tips which will enable you to develop your own applications!

You will need this accessory whatever your technical level, whether you are a beginner or an expert in performing card tricks!

Do not hesitate to acquire this essential tool for yourself!

### **What people think of it:**

For those who might pass this item by, do not make the same mistake twice! (lol): comfortable to handle, looks harmless, impeccably produced (of course), and enabling you to go much further in your preferred routines: what are you waiting for? -**Florian Chapron**

Product received the same day. Excellent quality. This is what comes to mind as soon as our 100 small fingers come into contact with the item. I have in my possession what can from now on be qualified as the "old model" and despite the high quality of this old version it is clear that the leather version is superior to anything else. Very comfortable to handle, very "lightweight", it is nothing but pleasure ... And the acrylic is just excellent for giving our effects a theme. A very big idea that enables you to go in a lot of different directions. For only 70 €, go ahead and buy this product of pure quality. It is clearly seen that Dominique's

prime concerns are quality, finish, presentation, and yes, I appreciate it enormously!!! You do not underestimate the customer! The DVD accompanying the wallets misses out nothing. It gives you a few ideas on the multiple possibilities of the item (indeed "infinite" would be the more accurate term!). Nice effects, particularly an even more effective killer version of "Faster Than Your Shadow". Dominique will always surprise me in his unremitting drive to make constant progress. Beautiful work in all respects. Thank you Dominique for what you offer us. The world of magic needs people like YOU! With all my respect and all my friendship in magic **-Anthony of Nancy, Mentalist (from Quoc Tien Tran)**

His mentalist routine on the DVD of the mini Duvivier Wallet is really excellent! Congratulations for this discovery in a very original scenario!

In fact, I'll say it again, your "mentalist" effect is amazing. The ideas are ingenious and the use of shaped elastic bands with the ESP cards is a great invention! And everything on the theme of the series, it works perfectly! Warm congratulations, it is very original!

And the mini Duvivier Wallet, thanks to the acrylic, enables the magician to work on highly varied themes. It is merely a question of inserting a photo inside, and hey presto ...you start out in an ingenious scenario, with ingenious ideas! (...)  
This mini Duvivier Wallet in the leather version is a marvel of quality and infinite possibilities when you rack your brains! Excellent!
