These new editions have been completely re-edited, formatted and bound to exceptionally high standards. Published by Davenports Magic of London, using a globally renowned printing company to create the most environmentally sustainable books published in their 114 year history.

Volume 1:

One of the acclaimed classics of card magic for the cardician with some 112 card effects with unprepared cards. Although a "self contained" volume of tricks and sleights it has the added bonus for those who are not familiar with a particular sleight of being able to move quickly to the special chapter dedicated to Sleights.

This chapter describes how the author himself performs such sleights as The Multiple Shift, The Half Pass, The Weave Shuffle, The Monte Throw, The Turnover Pass, The Second Deal, The Bottom Deal, The Ghost and Jordan Count, The Hamman Count etc. etc. The author, Roy Walton, is one of the world's most brilliant, creative and innovative card magicians.
