## **Sorted Affair (2013) by Sean Bogunia**

SORTED AFFAIR is one of the cleanest, most deceptive Oil & Water routines ever created!

There can be no question; the black and red cards are clearly mixed and then - in an instant - they're not! It looks so fair people might think its real magic! Best of all, the routine concludes with a brain twisting finale in which the ENTIRE DECK separates into red and black cards!

SORTED AFFAIR uses no complex sleight of hand; in fact it's virtually self-working. The entire face and back of each card is seen throughout the routine, no funny printing to hide. Not to mention, the routine resets instantly making it perfect for real world workers.

Comes complete with Bicycle gaffed deck and detailed instructional DVD with additional ideas and insights.
