## **Unwritten (Red) by Lyndon Jugalbot & SansMinds s**

Simply drop the deck into your spectator's hands and let the spectator feel the ink appear on the edge of the deck in their own hands!

Customize your own message at moment's notice. Make it personal and leave people with a souvenir of your magic that they will never forget!

"Unwritten is visual, easy to perform explainable, and fully customizable. It's my top go-to effect. And I know it'll be your's too!"
