
New Koornwinder Kar (T-227) by Tenyo Magic

Many professional magicians consider this unique effect to be a masterpiece of powerful magic. It is so magnificent, however, that numerous knock-off products have been released worldwide. Tenyo is proud to announce that we are the first to obtain permission from creator Dick Koornwinder to release this effect. In addition, we have developed a brand-new car design that enables you to pass out the car for examination by your audience. A bonus trick is also explained in which the car is used to divine a location that your audience wants to visit, chosen from among illustrated cards.

English instructions included.
